# SMITH & WESSON® 2016

At Smith & Wesson®, we are proud of our long-standing role in American history. For over 164 years, we have achieved success by designing and developing products that meet your needs and deliver unmatched superiority. We are proud to present you with our 2016 product catalog, featuring our newest pistols, revolvers, rifles and accessories.

This year marks the tenth anniversary of our M&P® family of firearms. We continue to expand this popular brand, providing loyal fans with innovative options that deliver performance and value to the shooting experience. In three short years, we have shipped over 1 million of our popular M&P SHIELD™ pistols, which were designed for concealed carry and have become the consumer firearm of choice for personal protection. We celebrate this milestone by sharing with you the new Performance Center® Ported M&P SHIELD, created by our world-class gunsmiths. In other firearms, our M&P modern sporting rifles lead the market in consumer choice. For 2016, we have expanded the standard features you will find on our M&P 15 Sport™ rifles, making them easier-than-ever to accessorize. Lastly, debuting in 2016 is our new Smith & Wesson SW22 Victory™, a modular design, metal-framed target pistol with fiber optic front and rear sights. This highly customizable and incredibly accurate .22 pistol will keep you on target round after round and will provide years of unmatched performance.

Our 2016 catalog also features a wide selection of quality shooting related products manufactured under our Smith & Wesson accessories division, Battenfeld Technologies, Inc.® As we expand this exciting new part of our business, we look forward to bringing you an even greater selection of innovative accessories under our Smith & Wesson, M&P and Thompson/Center Arms™ brand names.

The firearms and accessories within these pages are the culmination of our rich history of innovation, precision manufacturing, and unrivaled craftsmanship. We are proud to share them with you, and we are honored that you have made Smith & Wesson part of your shooting experience.

James Debney  
President and Chief Executive Officer

# **M&P**®

by **Smith & Wesson**®

Precision built to be the most accurate and reliable firearms, the M&P series is an experience you have to feel to believe. Durable and comfortable, they are capable of handling as many rounds as you are. With an ever-expanding line of full-size, compact and sub-compact pistols, revolvers and modern sporting rifles, M&P brings premium firearms to serious shooters.

Compact, sleek and ergonomic, the M&P BODYGUARD 380 delivers personal protection in an easy-to-carry, comfortable platform. Chambered for .380 ACP, the lightweight pistol features a high-strength polymer frame with a black, matte-coated stainless-steel slide and barrel. The M&P BODYGUARD 380 retains original design features including a 2 3/4-inch barrel, which contributes to an overall length of 5 1/2 inches and an unloaded weight of only 12.3 ounces making it perfectly suited for concealed carry.

# M&P® BODYGUARD® SUB COMPACT

## PISTOL FEATURES AND BENEFITS

Features shown below are not available on ALL models featured in this section. Please see individual specs for details on page 18.

- Crimson Trace® integrated laser models.
- Ambidextrous laser controls.
- Adjust laser without any disassembly of the firearm.
- Stainless steel slide and barrel.
- Stainless steel drift adjustable sights.
- External takedown lever & slide stop.
- Manual thumb safety (optional).
- Double action fire control.
- High-strength polymer frame.
- Ergonomic grip.
- Two magazines included (extended finger tab and flat magazine butt plate).
- Armornite® finish on the barrel and slide.

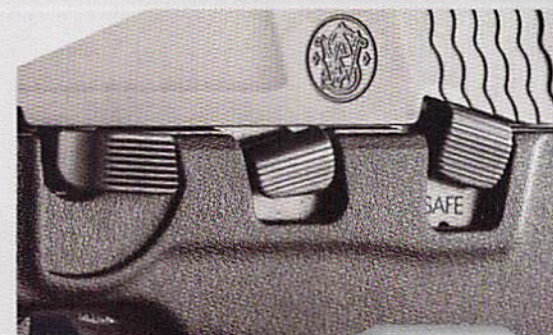

Armornite® finish is a hardened nitride finish that provides: Enhanced corrosion resistance, greatly improved wear resistance, decreased surface roughness, reduced light reflection and increased surface lubricity. Armornite is used on many S&W and M&P products imparting a high level of protection internally and externally where applicable.

The M&P Pistol Series offers a number of distinctive features that provide durability, safety and versatility. These features include a Zytel® polymer frame reinforced with a rigid stainless steel chassis and a thru-hardened black Armornite® stainless steel barrel and slide for durability; a passive trigger safety to prevent the pistol from firing if dropped; and a sear lever release that eliminates the need to press the trigger in order to disassemble the firearm. A loaded chamber indicator is located on top of the slide, and an internal lock system is optional for military and law enforcement users.

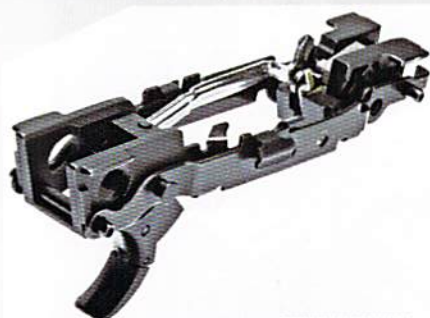

# M&P® PISTOLS FULL-SIZE

M&P® FULL SIZE PISTOLS

## FEATURES AND BENEFITS

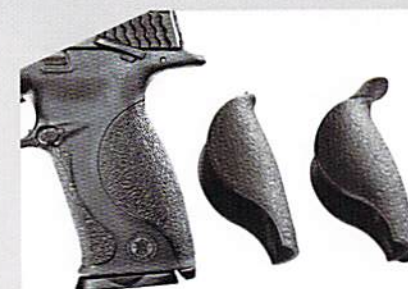

- Three interchangeable grip sizes to fit the individual shooter's hand and shooting style.
- Contoured front slide for easy re-holstering.

M&P22 – Connecting the shooter to the shot. When you can utilize all the features of your gun without having to think about a single one, that's when you know there's an M&P in your hand. A gun you'll recognize the moment you pick it up. The M&P22 line, chambered in the popular .22 Long Rifle cartridge, combines the look, feel and familiar operation of popular M&P centerfire pistols. Ideally suited for training or pure shooting enjoyment, this semi-automatic pistol upholds M&P's distinguished legacy of shooter-centric design.

Backed by the company's reputation for high quality components and consistent, proven reliability, the new M&P15 Sport II rifle offers enhanced upgrades to the original, industry leading M&P15 Sport rifle. Delivering a ready-to-go package with the additional features of a forward bolt assist and dust cover, the M&P15 Sport II rifle brings added value to this already time-tested platform. Dependable, accurate and engineered for a wide variety of recreational, sport shooting and professional applications, the M&P15 Sport II rifle offers the best combination of price and function. Manufactured on a forged upper and lower receiver constructed of 7075 T6 aluminum, the new M&P15 Sport II rifle is as rugged as it is capable.

# M&P® 15 SPORT™ II RIFLES

## FEATURES AND BENEFITS

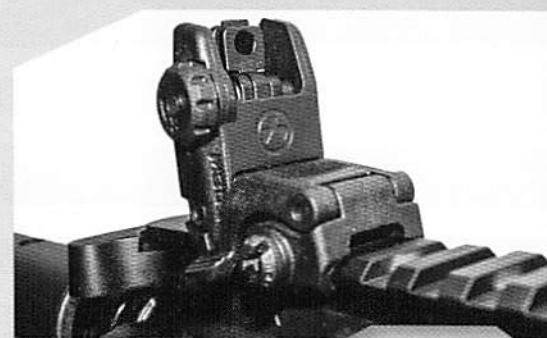

- Forged, integral trigger guard offers the optimal space needed for gloved fingers.
- Chromed firing pin for extended life.
- Armornite® finish on barrel - a durable, corrosion - resistant finish for longer life.
- Magpul® MBUS® folding rear sight.
- 6-Position collapsible stock to accommodate various shooter sizes.
- 30 round Magpul® PMAG® or 10 round magazine.
- M4 feed ramps for reliable feeding.
- Compatible with most standard AR15 components and accessories.

- Chromed Firing Pin
- Armornite® Finish on Barrel

Armornite® finish is a hardened nitride finish that provides: Enhanced corrosion resistance, greatly improved wear resistance, decreased surface roughness, reduced light reflection and increased surface lubricity. Armornite is used on many S&W and M&P products imparting a high level of protection internally and externally where applied.

M&P15 – Where ballistics meets ergonomics. Built to perform for multiple uses and under various conditions, the M&P15 forms the intersection between lightweight and rugged. Chambered in 5.56mm NATO (.223) and .300 Whisper® results in lower recoil, making the M&P15 an ideal modern sporting rifle for competitive sport shooting, hunting and other practical shooting competitions. Control, comfort and certainty are yours with the M&P15.

# M&P® 15 RIFLES 300 WHISPER®

## FEATURES AND BENEFITS

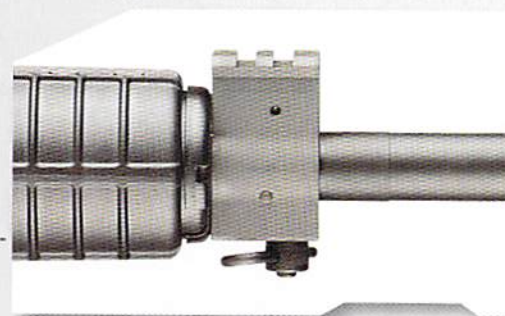

- Manufactured on the M&P15 modern sporting rifle platform.
- Chambered in .300 Whisper®. Will also safely fire .300 AAC Blackout.
- Very effective, short range round (approx. 200 yards) for hunting deer-sized game.
- Low recoil and muzzle blast.
- Designed to operate with or without sound suppressor.
- Barrel threaded to 5/8-24.
- Feed ramps and gas system optimized to run efficiently with a full range of factory loaded sub-sonic and super-sonic ammunition, both suppressed and unsuppressed.
- Barrel twist rate (1 in 7.5") is compatible with a wide variety of bullet weights from 110 to 220+ grains.

Armornite® finish is a hardened nitride finish that provides:  
Enhanced corrosion resistance, greatly improved wear resistance,  
decreased surface roughness, reduced light reflection and increased  
surface lubricity. Armornite is used on many S&W and M&P products  
imparting a high level of protection internally and externally where applied.

See M&P15-22 Sport Availability on Page 33.

# Smith & Wesson®

For professional use, you can feel confident standing behind 164 years of reliability and accuracy. Smith & Wesson knows firearms and the world knows Smith & Wesson. Only the best will do.

S&W1911 E-Series – The finer side of firearms. Earning a reputation for both distinctive style and uncompromising performance, SW1911 E-Series pistols are engineered and designed with meticulous care. This attention to every detail is expressed through aggressive texturing, a precision-fit trigger, a high-strength titanium firing pin and a hammer-forged frame. Enhanced. Elegant. Elite. The SW1911 E-Series.

# SW1911 E-SERIES™ PISTOLS

## FEATURES AND BENEFITS

- Scandium alloy frames for lightweight carry and durability (available on some models).
- Stainless Steel frames are highly durable and reduce felt recoil (available on some models).
- Fish scale serrations for a more tactile grip when racking the slide.
- Scalloped E-Series™ laminate wood grips for better grip and control.
- Tactical rail for easy mounting of lights and accessories (available on some models).
- Tritium night sights for low light situations (available on some models).
- Round butt frames for easier holstering (available on some models).
- Enhanced extractor for more reliable extraction.
- Two magazines included.

The SD9 VE and SD40 VE pistols combine the best of both price and functionality in a reliable, ergonomic firearm engineered for personal protection. For optimal comfort and control, the SD VE pistols have been fitted with an 18° grip angle for a natural point of aim and an ergonomic grip with aggressive front and back strap texturing. The SDVE pistols also have the reliable Self Defense Trigger (SDT™), which provides a smooth, consistent trigger pull and enhances accuracy while providing users with increased confidence. Built to deliver dependability, accuracy, comfort and value, the SDVE models provide the peace of mind long associated with the Smith & Wesson name.

# SDVE™ SERIES PISTOLS SELF DEFENSE

## FEATURES AND BENEFITS

- Polymer frame for lightweight carry.
- Stainless steel slide and barrel for extended life.
- Fixed white dot sights for quick target acquisition.
- Striker-fired action for low maintenance.
- SDT™ - Self defense trigger for optimal, consistent pull from first round to last.
- Ergonomic, textured grip for confident hold.
- Picatinny-style equipment rail.
- Textured finger locator on frame for same hand hold each time.

**Smith & Wesson®**  
REVOLVERS

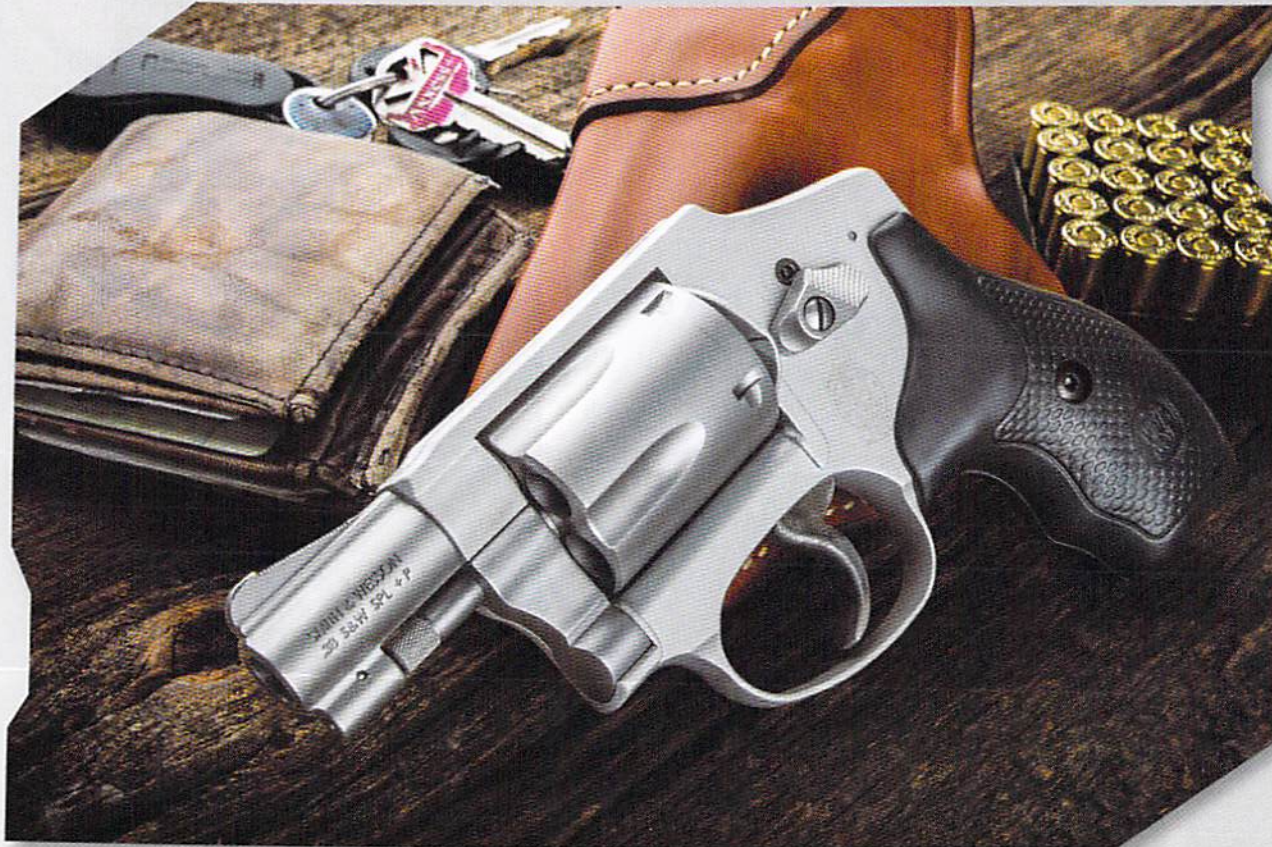

The tradition of innovation that began in 1852, endures today in Smith & Wesson's newest line of versatile and powerful revolvers. Smith & Wesson revolvers are synonymous with accuracy, reliability and power. Regardless of your choice, a concealable J-Frame or an extra-large frame Model 460XVR™- .460 S&W Magnum, you can rest assured that the same level of dedication to craftsmanship and design is embodied in each revolver produced by Smith & Wesson. The unquestioned superiority of a Smith & Wesson revolver is evidenced in any model, caliber or frame size. Smith & Wesson revolvers hold true.

# REVOLVERS SMALL FRAME (J)

## FEATURES AND BENEFITS

*Features shown below are not available on ALL models featured in this section. Please see individual specs for details on pages 52 & 53.*

- Multiple frame materials for different applications.
  - Aluminum Alloy
  - Scandium Alloy
  - Stainless Steel
- Three frame types for different shooting situations.
  - External Hammer
  - Internal Hammer
  - Shrouded Hammer
- Crimson Trace® Lasergrips® for low-light shooting.
- Lasermax Centerfire™ Laser for low-light shooting.
- HI VIZ® Fiber Optic Sights
- XS® SIGHTS White Dot Front Sights

**SMALL FRAME (J) FRAME TYPES**

**SCANDIUM ALLOY FRAME**

S&W has developed a patented, heat-treated scandium alloy frame for superior strength and reduced weight.

## REVOLVERS MEDIUM FRAME (K)

### FEATURES AND BENEFITS

- Stainless steel construction for high strength and less felt-recoil.
- Red ramp front sights for easy target acquisition (on some models).
- Adjustable rear sights allows shooter to customize sight picture.
- Patridge sights is a square sight that allows the shooter to maintain sight picture in target competition situations.
- Smooth double action and short, crisp, single action trigger pull.

# REVOLVERS

## MEDIUM FRAME (L)

**FEATURES AND BENEFITS**

- Stainless steel construction for high strength and less felt-recoil.
- Red ramp front sights for easy target acquisition (available on some models).
- Adjustable white outline rear sights allows the shooter to customize sight picture.
- Medium frame size to accommodate larger hand sizes.
- Smooth double action and short, crisp, single action trigger pull.

See K-Frame Revolver Availability on Page 49.

# REVOLVERS LARGE FRAME (N)

## FEATURES AND BENEFITS

- Stainless steel construction for high strength and less felt-recoil.
- Scandium alloy frame for lightweight, high-caliber carry (on some models).
- HI-VIZ fiber optic front sights for a quicker sight picture (on some models).
- Adjustable rear sights allows shooter to customize sight picture.
- Smooth double action and short, crisp, single action trigger pull.

See L-Frame Revolver Availability on Page 49.

# Performance Center®

by Smith & Wesson®

Performance Center revolvers, pistols, and modern sporting rifles are the embodiment of old-world hand craftsmanship and modern technology. The Performance Center offers sophisticated shooters limited run, uniquely designed, and special-featured firearms. When the most experienced and demanding shooters in the world are in the market for a new firearm, they turn to the Smith & Wesson Performance Center.

Performance Center Ported pistols are skillfully engineered with the competition shooter in mind. Open class members and action pistol competitors will appreciate the pistol's precision cut ports which aid in reducing muzzle flip and improve the ability to remain on target after firing. Accuracy and precise shot placement during competition benefit from the addition of a Performance Center sear. The specialized sear allows for a crisp trigger pull along with a fast, defined reset in between shots.

# PERFORMANCE CENTER® M&P® PISTOLS

## FEATURES AND BENEFITS

*Features shown below are not available on ALL models featured in this section. Please see individual specs for details on page 71.*

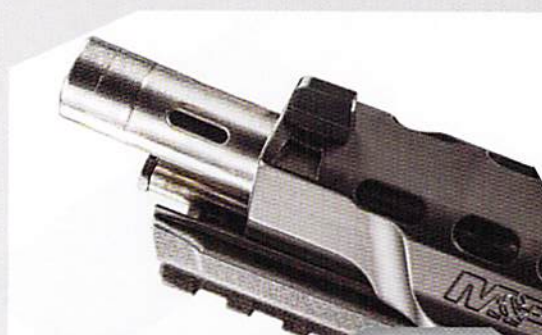

- Ported barrel and slide for reduced muzzle flip.
- Adjustable trigger stop to reduce overtravel.
- Three interchangeable, newly enhanced, textured palmwell grip sizes to fit any hand size.
- C.O.R.E. - Competition optics ready slides cut to accept several optics (mounting plates are included).
- Enhanced trigger for smoother action.
- Performance Center sear for a more positive trigger reset and a lighter trigger pull.

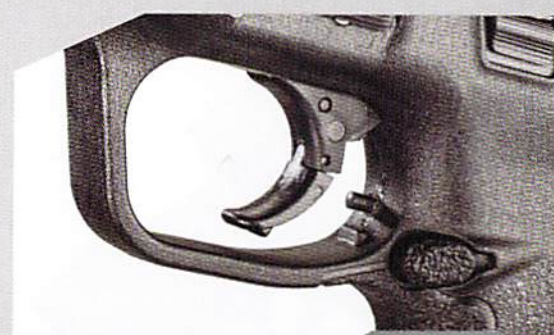

Features shown below are available on some models

**C.O.R.E. – SLIDE CUT TO ACCEPT OPTICS:**  
Trijicon® RMR, Leupold® Delta Point, Jpoint, Doctor, C-More STS, Insight® MRDS

PERFORMANCE CENTER® M&P® PISTOLS

SMITH-WESSON.COM

Bridging the gap between the standard production line and the Performance Center line, the Smith & Wesson PRO SERIES® represents the next step up for most firearm enthusiasts. These firearms offer a variety of enhancements, yet still remain true to stock models. Bringing competition specifications and features to factory models, the PRO SERIES® presents a whole new world of performance to gun owners.

The standard Performance Center revolver is not so standard by conventional definitions. We incorporate ergonomic designs that complement the users intended purpose, whether it be for hunting, carry or competition. Cylinder charge holes are counter sunk for easy loading and extraction. Performance Center Pistols and revolvers deliver structure integrity, functional efficiency, dependability and performance in a creative design to meet or exceed the standards of the world's most uncompromising shooting enthusiasts.

Smith & Wesson Handcuffs are fabricated from the finest quality carbon or stainless steel. They are made with heat treated internal lockworks, featuring smooth ratchets for swift cuffing and double locks to prevent tampering. From the original Model 100 series handcuffs to the unmatched durability of our restraint chains and leg irons – Smith & Wesson is a proven worldwide leader in handcuff and restraint production.

# HANDCUFFS & RESTRAINTS

## FEATURES AND BENEFITS

Along with the key actuated lock, all of our handcuffs come with a double locking system. The double locking system is actuated by means of a slot lock, push pin lock or the new, patented M&P lever lock – depending on the model.

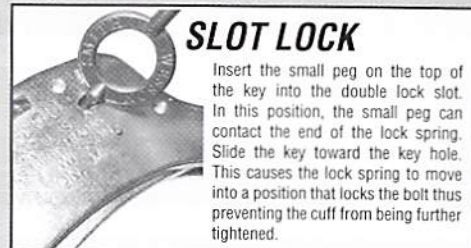

### M&P LEVER LOCK

With the tip of your finger, fully lift the lever and then allow it to return. Once this has been done, the double lock will be set. This causes the lock spring to move into a position that locks the bolt thus preventing the cuff from being further tightened. **NO TOOL REQUIRED TO DOUBLE LOCK!**

### PUSH PIN LOCK

Using the small peg on the top of the key, fully depress the push pin. This will lock the bolt as described with the double slot lock. This causes the lock spring to move into a position that locks the bolt thus preventing the cuff from being further tightened.

### SLOT LOCK

Insert the small peg on the top of the key into the double lock slot. In this position, the small peg can contact the end of the lock spring. Slide the key toward the key hole. This causes the lock spring to move into a position that locks the bolt thus preventing the cuff from being further tightened.
